Practice computer ID number

Identity verified by (initials)

Date

Method

- Vouching
- Vouching with information in record
- Photo ID and proof of residence

## Important Information – Please read before returning this form

If you wish to, you can now use the internet to request repeat prescriptions for any medications you take regularly and a basic medical summary including allergies.

**It will be your responsibility to keep your login details and password safe and secure. If you know or suspect that your record has been accessed by someone that you have not agreed should see it, then you should change your password immediately.**

If you can't do this for some reason, we recommend that you contact the practice so that they can remove online access until you are able to reset your password.

**If you print out or share any information from your record, it is also your responsibility to keep this secure. If you are at all worried about keeping printed copies safe, we recommend that you do not make copies at all. You can also download a copy of your medical record to a device of your choice and share your record with who you wish, it is your responsibility to ensure the security of sharing your record.**

## Access for children, parents and guardians

- Child access will automatically be disabled when a child reaches the age of 11
- A competency assessment will be carried out. Regardless of outcome a parent/guardian/carer will re-apply using the Proxy Access Registration Process, where a competent child must authorise the request for Proxy Access. This will be at the discretion of a clinician.
- A child deemed competent may have access to their online record or authorise a parent/carer to have Proxy Access
- Where a child is deemed not to be competent, a parent will apply for access but will be registered as a Proxy User. (This will be reviewed by the practice annually, or when the child attends a further appointment – whichever is the sooner)

Contd....

## Proxy Access

A competent patient can choose and consent to allow access to relatives and/or carers.

The patient will authorise a Proxy Application in the following circumstances:

A patient who has been deemed as competent has authorised and consented to online access.

- Circumstances when the practice will consider authorising proxy access WITHOUT the patient's consent will be when a child 11-16 has been assessed and is deemed as not being competent to make a decision on granting proxy access. Should there be such circumstances the practice will: Ensure the patient has provided consent to the Proxy application
- Ensure the level of access granted to the Proxy is appropriate and does not exceed what has been agreed by the patient
- Contact families/carers of children approaching their 11<sup>th</sup> birthday to remind them that online access could potentially cease, and invite them to come to the surgery for a discussion regarding options available
